How to avoid catching or spreading coronavirus

Do

- ✓ wash your hands with soap and water often – do this for at least 20 seconds
- ✓ always wash your hands when you get home or into work
- ✓ use hand sanitiser gel if soap and water are not available
- ✓ cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- ✓ put used tissues in the bin straight away and wash your hands afterwards
- ✓ try to avoid close contact with people who are unwell

Don't

- ✗ do not touch your eyes, nose or mouth if your hands are not clean

How to self-isolate if you're asked to

If there's a chance you could have coronavirus, you may be asked to stay away from other people (self-isolate).

This means you should:

- stay at home
- not go to work, school or public places
- not use public transport or taxis
- ask friends, family members or delivery services to do errands for you
- try to avoid visitors to your home – it's OK for friends, family or delivery drivers to drop off food

You may need to do this for up to 14 days to help reduce the possible spread of infection.
